REMEMBER THE WHITE HORSE IN FRONT.

PHOENIX WON EASILY

Defeated Mesa City Baseball Team by a Score of 15 to 5.

Phoenix, 15; Mesa City, 5.

That was the result of the baseball game at East Lake park yesterday, and, as indicated by the score, it was not much of a game either. Still, it was a better game than the score really suggests. Though the Phoenix team piled up the runs in a way most embarrassing to the southsiders, it earned all it got, and the Mesa players were careful that nothing went by default. They worked hard, but seemed to lack practice. The men were fairly active, and showed good judgment in getting in front of a ball, but for some reason they couldn't hang on to the leather when they did get it. They seemed to understand the game all right, but had left their rabbit's foot at home. The Mesa battery seemed to be the best feature of that side of the game, but the support was not real strong and there were numerous errors. In the last half of the eighth Williams, the Mesa pitcher, gave way to Power, who had been playing third base, and Power succeeded in giving the Phoenix team in that inning the only goose egg it acquired during the game. However, one man went out through a balk made by Power.

No attention was paid to this, as Smith, the Phoenix pitcher, committed the same sort of a sin two or three times during the game and was not called down for it. The umpire, Kinsler, seemed to give very general satisfaction, though he was rather too easy on both sides to stimulate good, scientific playing. He had evidently heard the fate of other umpires and decided to postpone his own dissolution as long as possible. A lingering death, or rather life, is preferable where it isn't accompanied by too much pain.

The Phoenix battery, aside from the few errors hinted at, was in good condition and played strong. Smith put some stiff balls up to the plate, and it is seldom that one of them gets

through to the lake except on a foul. If the batter don't stop them Loman generally does, and when he gets them they are instantly ready for return delivery if there is anything doing. The Phoenix field and basemen also gave good support in the game, and there were few plays that needed serious criticism. Pancho, the shortstop, went to sleep once, but he was instantly roused, and a couple of minutes later caught a fly, the finishing touch of the game, and put himself in standing against MacNulty who was Johnny on the spot at first base, as he usually is.

The first five innings were pretty well played, the score then standing 6 to 3 in favor of Phoenix, which only made one run in an inning, except the second, where two were recorded as against one run in the third and two in the fifth for their opponents. But in the sixth the Phoenix team made four, and after that the winemakers lost heart; also the game. Phoenix got five more runs in the seventh, and the visitors landed a couple in the eighth. Phoenix having gone to the bat first did not take her last innings.

The score by innings was as follows: Phoenix...1 2 1 1 1 4 5 0 x-15 Mesa City...0 0 1 0 2 0 0 2 0-5

Following is the line-up:
Phoenix. Mesa City.
Loman, c. Cuber, c.
Smith, p. Williams, p.
MacNulty, 1b. Newell, 1b.
Donovan, 2b. Montgomery, 2b.
Cosby, 3b. Power, 3b.
Pancho, ss. E. Griffin, ss.
Wylie, rf. Hornbeek, rf.
Butterfield, cf. McBrayer, cf.
Baraum, lf. J. Griffin, lf.

The Phoenix team, it may be said, is constantly improving, and is now able to hold a pretty good aggregation level. If it can keep up its practice it ought to be able to achieve fame. Glendale is the only team that has made Phoenix squirm real hard, and there ought to be further meetings between these two. They are both well organized, and if they continue to play with each other should make rapid improvement. Good baseball is fine sport, and the preliminaries having been disposed of there should now be a series of real games. Mesa, too, with a little more practice could put up a good game. She has no serious faults, but her joints need limbering.

A CONSTITUTIONAL TEST

Being Applied to Montana's Fair Trial Law.

Helena, Mont., Feb. 28.—The constitutionality of the "fair trial" law, enacted at the special session of the legislature in December, and intended to provide means of taking the trial of an action out of the hands of a court alleged to be prejudiced, is involved in a hearing before the supreme court begun yesterday.

Five writs, each involving the "fair trial" law, are before the court. Three are directed against Judge Clancy and two against Judge Harney, of the district court at Silver Bow county. Four of the cases present several questions involving the constitutionality of the "fair trial" law.

THE YAVAPAI PRIMARIES

A Friendly Contest Which Strengthened the Party.

Prescott, Feb. 28 (Special).—Approximately complete returns from all parts of Yavapai county leave no doubt that Frank Wright will be the choice of the delegates to the territorial convention for a place on the delegation to the national convention.

The contest was between Mr. Wright and W. C. Bashford, and was closely contested in nearly all the precincts. As a result, great interest was aroused, and the republican party is now stronger in this county than it has ever been. The contest between Mr. Wright and Mr. Bashford was entirely friendly, but some of Wright's supporters made a bitter fight against Bashford, and were so unfair as to circulate industriously stories to the effect that he was opposed to the endorsement of the territorial and national administrations in the resolutions to be adopted at Tucson.

The only basis for the stories was that Mr. Bashford had expressed his doubts as to the wisdom of sending an instructed delegation to Chicago. His only choice for the presidency has been Mr. Roosevelt, and like all other republicans, he was in favor of adopting resolutions wholly complimentary to Gov. Brodie and his administration. It is the custom among the republicans of Yavapai to look upon the governor, whoever he may be, as the leader of the party and entitled to the party's support.

Reports that Bashford proposed to take a course contrary to precedent and antagonize Gov. Brodie in the convention were vigorously repeated in all

parts of the county yesterday, and it was impossible for Bashford to overtake the falsehoods with the truth. And they do say that a surprising interest was manifested by the democratic brethren in the contest to the extent that many of them whooped it up joyously against Bashford and voted against him.

But as already stated, there is no soreness, and the republican party in Yavapai county is all right.

THEY CHASED HIM AROUND

Elijah II Is Making Headway in Australia.

Melbourne, Feb. 28.—John Alexander Dowie's meeting this afternoon in the Exposition building was broken up by a crowd shouting and singing comic songs. He was obliged to abandon the evening meeting, and was himself chased around the city by the rougher element, the mob yelling challenges to him to justify himself as prophet.

Public antagonism is so strong that Dowie has been refused rooms at a fashionable hotel.

ANOTHER EVANGELIST MOBBED.

Dillon, Mont., Feb. 28.—A mob of two hundred tonight took an evangelist named Bidwell to a point about a mile out of town and treated him to a coat of tar and feathers. He is accused of causing trouble in many families.

The house where he was holding service was wrecked, and there was a free fight in which many were injured.

\$20,000 JEWELRY THEFT.

Manhattan Importer's Residence at Mamareneck Is Robbed.

Mamareneck, N. Y., Feb. 28.—The residence of Henry Patton, a well known New York importer at No. 46 East Eighth street, has been entered by burglars at this place and robbed of jewelry valued at \$20,000.

Evidently the burglar is the same who entered the young ladies' seminary of Mrs. John Cunningham, at Pelham Manor, a few nights ago.

COTTON MILLS ARE CLOSED.

Those in Mexico Shut Down Because of Present Prices.

City of Mexico, Feb. 28.—A number of the cotton mills in Mexico have announced their intention of shutting down owing to the increased price of cotton.

The owners state that the increase which they would have to make in the prices of their goods would place them out of reach of the poorer classes of Mexico and that the manufacturers of cotton goods in this country cannot be continued on the present basis.

A SOUTHERN RAILROAD.

Oklahoma Preparing to Further Grid-iron in the Southwest.

Guthrie, O. T., Feb. 28.—The Oklahoma, Roswell and White Mountain Railroad company, capital stock, \$5,000,000, with headquarters at Oklahoma City and branch offices at Roswell, N. M., has been chartered here to construct a line of railway commencing at Mangum, O. T., and running in a southeasterly direction through Chaves and Lincoln counties, New Mexico, by way of Rio Hondo, to Ruidoso, thence up Corralito river to the Mescalero coal fields, thence through the Mescalero Indian reservation via the Mescalero agency to Tularosa, N. M.

ICE BROKE IN THE KAW.

Kansas City, Mo., Feb. 28.—Ice in the Kansas river went out tonight, wrecking three temporary viaducts built after the flood last June, the Kansas avenue, the Belt line and the Argentine bridges.

The direct financial loss is not large but the inconvenience and interruption to traffic is serious.

WHEN BENCH AND BAR MEET.

Judge Rowndes—Your face is familiar. I've seen you before.

Prisoner—Yes, your honor, quite often.

Judge Rowndes—Ah! what was the charge the last time I saw you?

Prisoner—I think it was 15 cents, your honor. I mixed a cocktail for you.—Philadelphia Press.

NOT IN THE GOWN, BUT—

Tess—I'm afraid this gown doesn't become my complexion at all.

Jess—Well, why don't you change it?

Tess—How can I? It's made up now and they won't exchange—

Jess—But you can wash it off and make up differently.—New York Press.
